FINE WOOD INTERIOR DOORS

It's the inside that counts

Located in the heart of Ohio's Amish region, Ohio Door Company creates high quality, interior doors out of the finest wood and finishes available. Made in an area known for quality and attention to detail, Ohio Door Company interior doors give homes a level of warmth and sophistication that only comes with fine, hand-crafted wood products.

Just as Amish furniture makers view their pieces as works of art, Ohio Door Company takes pride in making sure each door that leaves the warehouse is a wooden masterpiece. Our goal is to manufacture beautiful and sustainable doors that will enhance the décor of homes for generations to come.

With a nearly limitless amount of finish and style combinations available, Ohio Door Company offers homeowners, architects and builders the interior door options they need to create a comforting and luxurious atmosphere for the inside of any home or business.

Panel Doors

Panel doors add an extraordinary level of elegance to the interior décor of any home or office. Ohio Door Company combines old world craftsmanship with rich architectural detail to create high quality, elegantly beautiful raised or flat panel doors that will enrich the interior of any room.

Ohio Door Company's panel doors are available in a vast variety of styles. We offer our doors in a complete line of the finest wood species available, as well as an array of finishing options (including unfinished).

Green Building

At Ohio Door Company "Green" isn't just a label, it's a way of life. Our wood suppliers have received certifications from the nation's prominent sustainable forestry organizations. For more information contact Ohio Door Company.

Along with our "Green" products we also focus on sustainability. Waste wood is used to fuel our manufacturing facility's heating system, and the facility uses large skylights to provide natural lighting.

Quality Construction

The expert craftsmen at Ohio Door Company build each interior door from solid wood. Doors are available in standard 6'8", 7' and 8' heights, 12" to 42" widths, and 1 3/8" and 1 3/4" thicknesses (Custom thicknesses available up to 2 1/4"). Custom heights and sizes are available.

We manufacture the stiles and rails with a solid wood core and plank veneers. The core is ripped and turned to reduce the possibility of warping.

Ohio Door Company offers raised or flat panels (Shaker style or Mission style). The panels are made from solid wood to match the stiles and rails. Alternate panel species are also available (example: cherry stiles and rails with ash panels).

Ohio Doors have a standard OG Profile with options for square, putty and custom profiles.

PANEL DOOR SECTION VIEW

- SOLID WOOD PANEL
- EXPANSION CUSHION
- PLANK VENEER
- SOLID LUMBER CORE (POPLAR)
- SOLID WOOD EDGES

**flat panel construction is the same, except with a veneered flat panel.*

Split Species

Ohio Door Company is one of the few interior door manufacturers to offer a “split species” product where different wood species are used on either face of the door. Split species doors make it easy to coordinate the décor in homes with varying interior wood finishes.

Finishing

Ohio Door Company offers luxurious finishing options on all of our wood doors. Our high-end finishing is applied by local expert craftsmen, so customers can expect the same attention to detail from start to finish.

You can choose from the following finishing options:

- Clear coat
- Light stain
- Medium stain
- Dark stain
- Custom matches are available

Available Wood Species

Ash

Birch

Cherry

Fir

Hickory

Knotty Alder

Knotty Pine

Mahogany

Maple

Oak

Pine

Poplar

Walnut

**All wood species are available finished or unfinished. Doors can be primed as well. For additional wood species options contact Ohio Door Company.*

Built on Demand

Ohio Door Company creates its interior doors based on each order. We build any available design, in any available wood species and finish.

Quick Delivery

We deliver our doors in three to four weeks. Ohio Door Company individually wraps each door and carefully packages the doors to ensure a damage-free delivery. (Custom sizes may require additional lead time.)

Finishes

Ohio Door Company doors are unfinished, however a variety of prefinishing options are available.

Specifications – standard sizes, custom available

Door Thickness: 1 3/8", 1 3/4"

The Natural Beauty of Wood

Ohio Door Company creates door products out of a multitude of wood species. Trees, like all living things, are affected by the surrounding environment. Therefore some of the characteristics of Ohio Door Company's wood products, such as grain pattern, color, and density occur naturally and are not created by the manufacturer. Even wood from the same species will usually show unique characteristics from door to door.

The unique characteristics of each Ohio Door Company product could be susceptible to minor change after the doors are installed.

The product photographs in this catalog depict a representation of the door products, and due to the natural characteristics wood, the appearance in the catalog may vary from the actual product.

Door Handing

"Door handing" is determined by the location of the handle on an inswing hinge (see chart below). Please indicate right handed (RH) or left handed (LH) for each order. Double doors are based on the active panel.

Warranty Information

Ohio Door Company Interior Doors are manufactured under stringent quality control and supervision using quality materials. We warrant our product for one (1) year from date of delivery against material and workmanship defects which render them unserviceable or unfit for their proper intended use. Ohio Door Company's one year door warranty is subject to customer compliance with the following terms and conditions.

1) DRY CONDITIONS

Doors must be stored and hung for use in a dry environment, not in damp, moist or freshly plastered areas where the veneer may absorb moisture abnormally leading to warping, swelling, and /or shrinking.

2) APPLICATION OF HARDWARE

Incorrect application of hardware or cutting and altering, which render the door unfit for its proper intended use are not to be considered manufacturing defects.

3) STORAGE

A door should be stored laying flat with full support of its length and width until it is hung.

4) TRIMMING ALLOWANCE

The maximum trimming allowance in door width shall be 1/4 inch from each side equally and 1/2 inch maximum from the top and bottom of door.

5) FINISHING OF DOOR

The entire door (all six sides) i.e. top, bottom, sides, and faces must receive at least two (2) coats of varnish or sealer to prevent undue moisture absorption which may cause warping to occur. This warranty does not cover finishing, or the cost thereof, or any defect caused thereby.

6) INSTALLATION

This warranty does not cover improperly installed or handled doors.

7) LIMITATION OF WARRANTY

At its sole discretion Ohio Door Company shall repair or replace any door found defective. Under no circumstances shall Ohio Door Company be held liable for more than the purchase price of the door, and Ohio Door Company shall not be liable for any consequential, indirect or incidental damages, whether the claim is for breach of warranty or negligence.

Product Variations

Due to printing variations the color of our products may not identically match the depictions in this catalog. For a more accurate representation please review actual color samples and/or displays.

Notice: Ohio Door Company reserves the right to make improvements or changes to our products, materials, specifications, designs and finishes without prior notice.
